**New Electric Water Heater
 Rebates: From \$250.00 to \$350.00**

Effective July 01, 2008, if you are an electric member building a new home or replacing a fossil fuel water heater and plan to install a new electric water heater, The Energy Cooperative would like to write you a check for \$250 to \$350! Why? The Energy Cooperative wants to promote the use of energy efficient appliances and enlist you as part of our Load Management Team. The installation of a well insulated water heater helps to reduce energy consumption and helps members save money towards their utility bill. If you are constructing a new home or replacing a propane gas, natural gas or fuel oil water heater with a new electric water heater you can qualify for a rebate ranging from \$250 to \$350. Please see the qualifications listed below.
